The Wisconsin School Music Association challenges youth to achieve excellence through music. Each year, WSMA proudly serves students in Wisconsin public and private schools through a variety of programs including: WSMA Music Festivals, State Honors Music Project, State Marching Band Championships and the Student Composition Project.

WSMA derives its primary support from school memberships and fees directly related to activities. However, as participation by students, costs and demand for new services has been on the rise and school budgets decrease, student participation is often being limited by schools to reduce costs. The Wisconsin Foundation for School Music (WFSM) actively seeks your support to ensure the future of quality music opportunities for Wisconsin students. There are numerous donation opportunities. For more information on how you can help, please visit the WFSM website at www.foundation4schoolmusic.org. All gifts are tax deductible.
